

C2-373B LED Work Light

9-33VDC | Wide Beam | 1300lm | 11W | IP67

The C2-373B is a mini LED work light designed for smaller vehicles and tight spaces. It features an aluminium housing and a polycarbonate lens, with three LEDs in a circular shape, providing bright and focused illumination.

Operating within a voltage range of 9-33VDC, it consumes 11W of power, and offers an effective output of 630 lm, ensuring efficient energy usage. The light is designed to withstand harsh conditions, with an IP67 rating for protection against dust and water, and it offers over-voltage, reverse polarity, and overheating protection.

Approved under EN 50498, it meets electromagnetic compatibility standards. The LEDs emit a cool white light with a LED colour temperature of 5700K, enhancing visibility in low-light conditions. This work light is ideal for use in specialist, agricultural, and construction vehicles.
