## USB Panel Mount Couplers

Flush-mounting Female to Female couplers with a 5Gb/s data transmission speed and rated 1A / 5V for power, designed for use with 22mm panel cut-outs. The couplers are available in USB-A, USB-C and Dual USB-A configurations, manufactured in Zinc alloy with a bezel finished in either black or silver, and come complete with a locking nut for fixing to the rear of a panel. These are ideally suited in applications where devices such as mobile phones, laptops, tablets and other USB enabled devices may require charging, power or data connection, e.g. smart offices, A/V, public spaces, convenience charging, commercial spaces, residential installations. Also available with prewired pigtail on request.

- USB-A 3.0 / USB-C / Dual USB-A 3.0 Female - Female sockets
- USB-A 3.0 available with 250mm Male pigtail
- Zinc alloy bezel with Nylon insert
- Standard 22mm panel size
- Fixing with included Nickel plated Brass locknut
- Rubber 'O'-ring for firm fixing and anti-vibration
- Black or Silver bezel finish
- CE / ROHS compliant
